

Ps Token

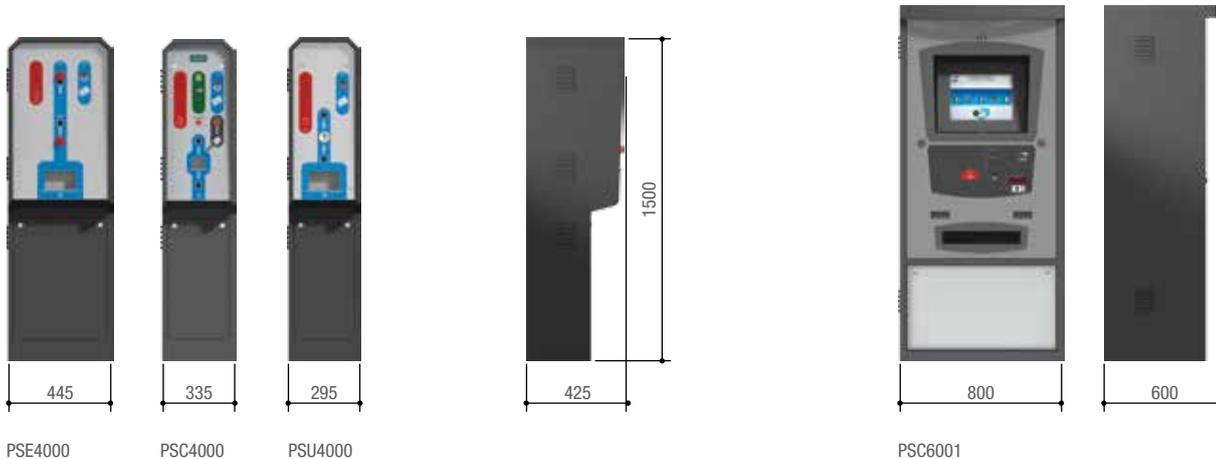

Automatic parking facilities with transponder token

The solution with tokens for managing occasional users and payments

- Easy to use system for managing parking facilities with transponder token.
- Ideal for managing occasional users.
- Season ticket holders can also be managed thanks to the practical transponder cards.
- The modularity and flexibility of the solution make Ps Token the answer for complex, multi-storey and multi-level systems, with multiple entrances and exits.

SYSTEM COMPONENTS

PSE4000 Entry unit

Designed to manage entry with barcode tickets, this has two buttons to request the ticket (double height) and a reader for transponder cards to manage season ticket holders. An intercom can be fitted. Made from sturdy galvanised steel with epoxy paint, secured to the ground using the anchoring base supplied.

PSU4000 Exit unit

Allows the use of transponder tokens that have been validated (at the automatic or manual pay station) to manage exiting the parking facility. Complete with reader for transponder card to manage season ticket holders. An intercom can be fitted. Made from sturdy galvanised steel with epoxy paint, secured to the ground using the anchoring base supplied.

PSC4000 Automatic payment station

Manages payment and validation of the transponder token. Complete with reader for various denominations of coin, reader for transponder cards to manage season ticket holders and thermographic paper printer for issuing receipts. Made from sturdy galvanised steel with epoxy paint, secured to the ground using the anchoring base supplied.

001PSC6001 Touch screen automatic payment station

The automatic TOUCH SCREEN pay station built using break-in resistant steel. Payment is made by coins and notes. Season ticket holders can top up their transponder card directly at the payment station.

The features

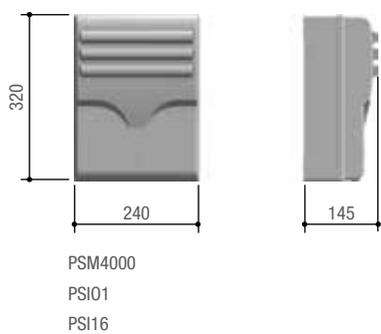

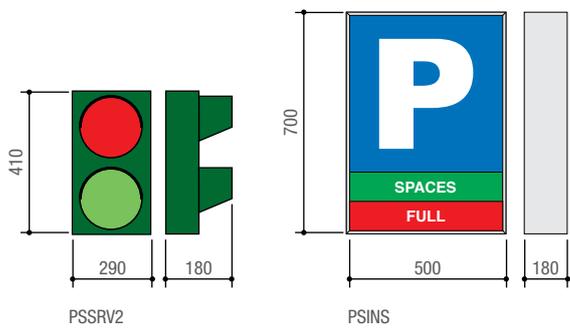

- Multilingual menu with 6 language choices.
- Coin and note reader that can be programmed according to the currency in the country of installation.
- Information during payment: amount paid - still to pay - change.
- An intercom with a HELP call button can be fitted.
- Season ticket management with transponder cards, which can be topped up directly at the automatic pay station.
- Advertising or service messages available for customers.

PSC1 Auxiliary payment station

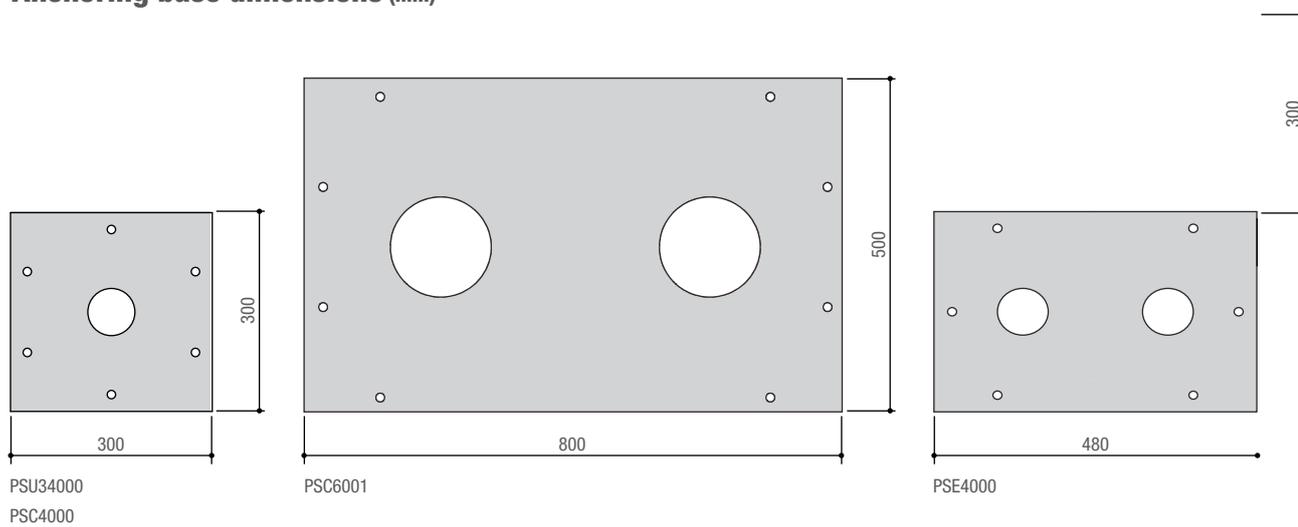

A special unit for creating multiple validation or payment points, even without a PC. Very useful at supermarket checkouts, or anywhere a business owner wants to reward loyal customers by paying for parking in whole or in part.

THE COMPLETE RANGE

Code	Description	Price £ (Excl. VAT)
230 V AC system for automatic parking facilities		
001PSE4000	Galvanised and painted steel entry unit, complete with sensor for transponder cards and keychains plus token collector (009GET).	£2,444.00
001PSU4000	Galvanised and painted steel exit unit, complete with sensor for transponder cards and keychains plus token collector (009GET).	£1,924.00
001PSC4000	Automatic payment station with galvanised and painted cabinet. It features: a sensor for transponder cards and keyfobs, a token reader (009GET) and a display (without change-giving device, it issues receipts). Payment can be done with coins.	£3,666.00
001PSC6001	Automatic payment station with galvanised and painted cabinet and panel in satin finished AISI 304 steel. It features: PC, coin and note reader with change-giving device.	£16,484.00
001PSM4000	Manned payment station with control unit, management software, display and PC30 interface for connection to PC.	£1,196.00
002PSI01	Auxiliary device control for connecting traffic lights, lightbox signs, magnetic sensors and safety sensors (max 8 outputs).	£136.00
001PSC1	Auxiliary payment station. Together with PSI16, it is possible to create a payment station without a stable connection to a PC.	£266.00
001PSI16	Interface for connecting max 16 unit (auxiliary manual payment station).	£297.00
009GET	Transponder token.	£10.00

Signalling accessories		
001PSINS	Double-sided luminous sign (FREE - FULL).	£874.00
001PSSRV2	Traffic light with green and red lights in two separate modules 290 x 180 x 410 mm, made of ABS with polymethacrylate lamp screen Ø 125 mm, IP55 protection rating.	£196.00

NOTES

001PSSRV - Max power of each lamp 70 W at 230 V AC, complete with rain guard for each module (rain guard dimensions Ø 220 mm L = 200 mm)
THE LAMPS ARE NOT INCLUDED.

THE COMPLETE RANGE

Code	Description	Price £ (Excl. VAT)	
Accessories for: 001PSE4000 - 001PSU4000 - 001PSC4000 - 001PSC6001			
001 TST01	ISO 7810 – 7813 format transponder card.	£10.00	
009 PCT	Keyfob transponder.	£10.00	
009 TAG	Glass transponder tag.	£14.00	
001 PSV01	Ventilation kit for cabinet with n. 2 fans.	£177.00	
24 V AC - DC magnetic sensors			
009 SMA	Mono-channel magnetic sensor for metal mass detection.	£218.00	
 009 SMA2	Bi-channel magnetic sensor for metal mass detection.	£309.00	
230 V AC magnetic sensor			
009 SMA220	Bi-channel magnetic sensor for metal mass detection.	£309.00	
Accessories			
INDCABLE	50 metre (1mm) vulcanised direct burial cable for induction loops. If you require extra cable please call our customer support team.	£63.00	

NOTE
001PSV01 Especially recommended for installation in hot climate countries.
